#### FOUNDER'S MESSAGE

## Founder's Message

---

We founded Al Afandi Group on a firm conviction: Syria deserves modern, trustworthy service institutions — run to global standards with an authentic local spirit.

We saw that individuals, companies, and investors — at home and abroad — need one reliable partner to execute their work and manage their interests with professionalism and transparency. So we brought administrative, operational, digital, and real-estate services together under a single corporate umbrella, built on governance, documentation, and operational excellence.

We believe trust is built through documented action, not promises — and that is what we build day after day: an integrated business system ready for growth and regional expansion.

## ABOUT THE GROUP

# About Us

Al Afandi Group is an integrated solutions, services, and business-operations group headquartered in Aleppo with regional ambition. We deliver a multi-division corporate system serving individuals, companies, and investors to unified standards, wherever they are — we are not a local office or a real-estate agency, but a scalable, investable business system.

### **A system, not a vendor**

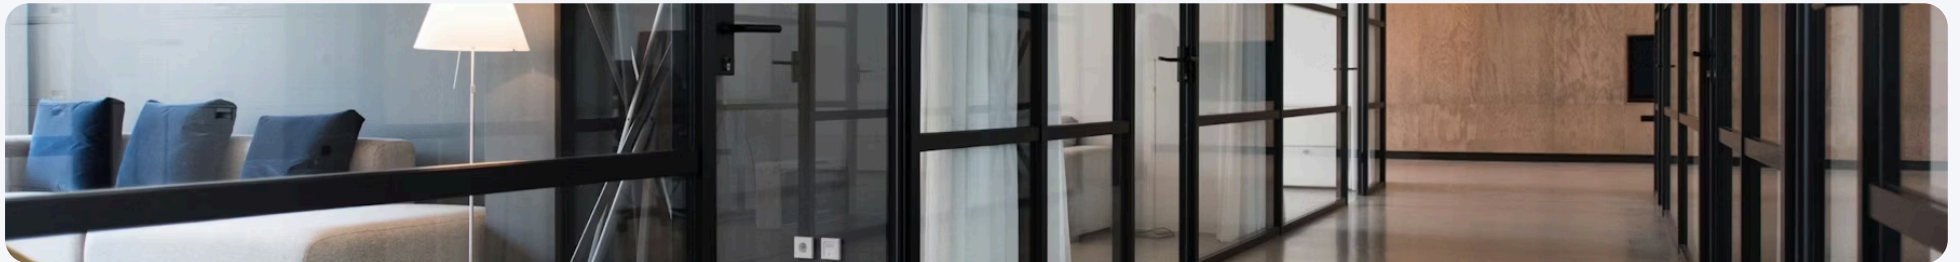

Six integrated operating divisions under one umbrella; real estate is one division, not the whole identity.

### **Operating philosophy**

Governance, documentation, transparency, and operational excellence — through unified, methodical processes and full accountability.

### **Positioning**

Syrian roots with global standards — run by real standards, not passing appearances.
